

Art.No.	article name
324240001	Phase tester, 12-230 VAC and 12-48 VDC, with LCD display, colour: blue

1-pole phase tester and voltage tester for AC/DC with LCD display and glow lamp, direct or non-contact voltage testing, suitable for DC voltage (motor vehicles) and AC voltage (electrical installations), no battery required, colour: blue

Technical data		324240001
Total length		130.0 mm
Isolation protection 1000 V		no
Precision model		no
Low spark model		no
Blade diameter		4 mm
Cap rotatable		no
Model		Straight
Insulated		yes
Weight		0.021 kg
Antimagnetic		no
Blade length		17.0 mm
Blade width		4.0 mm
Square drive/hexagon drive over the whole blade		no
Bulged blade		no
With anti-roll protection		no
With striking cap		no
Clamp feature		no
Square drive/hexagon drive		None
Blade material		Other
Surface protection blade		Other
Material handle		Plastic
Type of shaft		Round
Grip design		1-Komponenten
Farbe (Kopp-Bezeichnung)		blau
