

Art.No.	article name
439005014	Kopp myHomeControl®-Home Server

Kopp myHomeControl®-Home Server, Windows based, for monitoring and controlling your building and energy management system, with visualization, incl. power supply

Technical data	439005014
Length mm	0.1 mm
Height/depth	35.0 mm
Number of modules	0
Bus system KNX-RF (Radio Frequent)	no
With load management	yes
Operation by Bluetooth	no
Compatible with Apple HomeKit	yes
Compatible with Google Assistant	yes
Compatible with Amazon Alexa	yes
Mounting method	other
Width	84.0 mm
IFTTT support available	yes
Number of USB ports	2
Type of internet connection	Ethernet
Current supply primary	Netzbetrieb
Supporting protocol for RTS	no
Supporting protocol for Z-Wave	no
Supporting protocol for EnOcean	yes
Supporting protocol for io-homecontrol	no
Supporting protocol for ZigBee	no
Control of lighting elements	yes
Control of opening elements (shutters, doors)	yes
Control of heating elements	yes
Control of hot water elements	yes
Control of AC/ventilation	yes
Control of multimedia elements	yes
Control of security elements	yes
Control of household appliances	yes
With voice command	no
Alarm-management	yes
Offline use	yes
With integrated modem	no
Packaging break	J
